GRiPPiT Anti-Slip Spray

Safety in spray form – without a visible coating

Do you want to make slippery floors less slippery without altering the floor itself?

Falls are the leading cause of accidents in and around the home worldwide. Children and the elderly, in particular, are at risk of serious injuries such as fractures or head trauma. The bathroom is one of the most dangerous areas in this regard; skin oils, condensation, and soap residue can quickly make floors incredibly slippery.

GRiPPiT Anti-Slip Spray provides a durable anti-slip effect without a physical coating, while offering maximum grip, making it perfect for most types of bathroom flooring. **Easy to apply, instantly safer.**

Product description

Characteristic	Value
Contents	250 ml
Application	Bathrooms, showers, wet rooms
Biodegradable	Yes
Ingredients of animal origin	No
Product	100% ecological/environmentally friendly and safe for humans, animals, and the environment.
Storage	Frost-free
Self life	Approximately 3 years

GRiPPiT Anti-Slip Spray has been specially developed to make small, slippery surfaces such as tiled floors, shower trays, and bathroom floors safer and more slip-resistant.

This anti-slip spray offers a powerful, accessible solution for anyone looking to quickly and easily make slippery floors safer. Unlike traditional coatings, the spray subtly penetrates the surface. It creates a durable anti-slip effect without leaving a visible layer or altering the floor's appearance. It is ideal for bathrooms and damp areas where safety is a priority. Since it does not change the color or texture of your tiles or flooring, it is completely safe to use.

- ✓ 100% eco-friendly and biodegradable
- ✓ No hazard symbol on the label, so very safe to use.
- ✓ Very quick and easy to apply
- ✓ Does not alter the original structure or color of the substrate.
- ✓ Ensures preventive safety
- ✓ Affordably priced

Makes floors less slippery and safer.

Application

GRiPPiT Anti-Slip Spray is very quick and easy to apply.

For best results, apply the product to a clean, degreased, and DRY floor.

Apply GRiPPiT AntiSlip Spray using a lint-free cloth and allow it to set for a while.

Preparation of the surface

For optimal results, any invisible residue of skin oils, soap, and shampoo must be removed. We recommend using **Frezzy**, our 100% eco-friendly multi-purpose degreaser, for this purpose.

Frezzy Multi-Purpose Degreaser is suitable for effectively cleaning everything in and around the home. Thanks to its powerful degreasing action, it cleans better than most standard cleaning agents or all-purpose cleaners.

For which floors is it suitable?

The product works on most floors and surfaces. This depends on the porosity of the specific floor or surface. The product works on the following floors and surfaces:

- ✓ Tile floors
- ✓ Synthetic floors
- ✓ Plastic shower trays
- ✓ Concrete floors

**Depending on the porosity of the surface.*

Please note! The product is not suitable for laminate flooring

Safe & Eco-friendly

GRiPPiT Anti-Slip Spray offers a 100% eco-friendly and safe solution. Unlike most harsh chemical alternatives on the market, GRiPPiT carries no hazard symbols. The product is fully biodegradable and contains no harmful chemicals.

It is safe for use in barefoot areas and transforms a slippery bathroom floor into a safe, high-traction surface within minutes, without altering the appearance of the tiles.

Moreover, it aligns perfectly with sustainable procurement policies: the product contains no ingredients of animal origin. It is therefore safe for people, animals, and the environment.

Makes floors less slippery and safer.
